

ABOUT THE GAME

The gods are gathered. All twelve are present on Mount Olympus. Zeus is in high spirits, lightning in hand, a magnificent mustache on his face... but—hold on—is that a tail? It seems the King of Gods is looking a little... furrrier than usual. A new shapeshift form, perhaps, or has Smokey Le Bandit pulled off his wildest disguise yet?

From robbing pharaohs to rocking rhinestones, our favorite French raccoon is back—this time in a toga and ready to cause divine chaos. He's not just stealing treasures—he's stealing the thunder!

Welcome to Le Zeus, a 6-reel, 5-row lightning strike of a game, with paylines and a max win of 20 000 times your bet available in every game mode.

He's back, he's fuzzy, and he's got a lightning bolt, enough said.

FEATURES

MYSTERY REVEAL

Mystery symbols land vertically adjacent on reels during a spin, revealing all high-paying symbols, all Wilds, or a Mystery Reel. Mystery symbols only land on reels 2, 3, 4, and 5 during normal play.

If a Mystery symbol reveals high-paying or Wild symbols that are part of a win, a respin sequence is triggered where all revealed symbols revert back to Mystery symbols and remain sticky throughout the respin. Once the respin is complete, new symbols are revealed and new wins are awarded. The respin sequence continues until no new wins are awarded with the revealed Mystery symbols or a Mystery Reel is revealed.

Mystery Reels are formed when one or more Mystery symbols land on the same reel; those symbols then spin. Once they stop spinning, each position will reveal Coin symbols, Diamond symbols, Clover symbols, or Pots of Gold symbols. When the Mystery Reel has revealed all its symbols, all Coin and Diamond symbols reveal a random multiplier depending on the symbol type.

All Coins and Diamonds are cash prizes paid as multiples of your bet.

Bronze Coins can have the following values: 0.2x, 0.5x, 1x, 2x, 3x, 4x

Silver Coins can have the following values: 5x, 10x, 15x, 20x

Gold Coins can have the following values: 25x, 50x, 100x

Diamonds can have the following values: 150x, 250x, 500x

After all Coins and Diamonds have been revealed, the Clover symbols will activate. Green Clover symbols will multiply all Coins or existing Pots of Gold on adjacent squares with one of the following Multipliers: x2, x3, x4, x5, x10, x20. Gold Clover symbols will multiply all Coins or existing Pots of Gold on the grid with one of the following Multipliers: x2, x3, x4, x5, x10, x20.

Once all Clover symbols have applied their Multipliers, Pot of Gold symbols will activate. Pots of Gold collect the values of all Coins, Diamonds, and other Pots of Gold on the grid and store their total value. Pots of Gold activate top-to-bottom, left-to-right.

When all values from Coins, Diamonds, and Pot Of Gold symbols have been collected, all other symbols in the Mystery Reels except the Pot of Gold will spin and activate again to reveal new symbols, and the process above repeats.

Once all reveals and activations have been completed, all Coins, Diamonds, and Pots Of Gold values will be added together and multiplied by your bet amount to determine the final awarded win. The Mystery Reels are removed at the start of the next spin.

BONUS GAME - BOLT & RUN

Activate this bonus with 8 free spins by landing 3 FS scatter symbols at the same time during the base game.

This bonus game keeps the base game's mechanics, and all Mystery symbols that land are Sticky and remain in the same position throughout the bonus! The minimum Coin value that can land in this bonus is 1x.

BONUS GAME - MYTH-TAKEN IDENTITY

Activate this bonus with 8 free spins by landing 4 FS scatter symbols at the same time during the base game.

This bonus game keeps the base game's mechanics. In addition, a Mystery Meter is displayed outside the grid. Each time a Mystery symbol lands on the grid, the Mystery Meter increases by one step. 25 Mystery symbols

are needed to fill the Mystery Meter.

When the Mystery Meter is full, a reward spin is triggered after the current free spin is complete. On a reward spin, every position on the grid will be covered by a Mystery Reel, which will only reveal Coins, Diamonds, Clover symbols, or Pots of Gold.

During the first reward spin, all types of Coin symbols can land, with Bronze as the minimum Coin type. With each subsequent reward spin, the minimum Coin type increases by one step, first Bronze, then Silver, and so on, removing the lower-value Coin symbols each time. The minimum Coin value that can land in this bonus is 1x.

Once all reveals and activations from the reward spin have been completed, the grid will reset, the Mystery Meter returns to zero, and the new minimum Coin symbol type will update for the next reward spin. The Mystery Meter will continue to fill and trigger reward spins until there are no more remaining free spins.

HIDDEN EPIC BONUS - GODS JUST WANNA HAVE FUN

Activate this bonus with 8 free spins by landing 5 FS scatter symbols at the same time during the base game.
