FEATURES

GOLDEN FRAMES

Golden Frames will land on positions during a spin and reveal a Multiplier or a Jackpot when the grid settles. A Golden Frame counts as part of a win if the symbol in its position is included in a winning payline. When a Multiplier Frame is part of a win, the win is multiplied by the value of the Multiplier. If there is more than one Multiplier in a win, the Multiplier values will be added together to form a total, which is applied to the win.

Possible Multiplier values are: 2x, 3x, 4x, 5x, 6x, 7x, 8x, 9x, 10x, 25x, 50x, 100x.

Jackpot Frames award one of four different cash prizes when part of a win or when collected by a Clover Crystal. The Jackpot value is based on your current bet. When a Jackpot is part of a win, the win is multiplied by your bet to determine the total awarded amount. If more than 1 Jackpot is part of a win, all Jackpot values will be added together to determine the total awarded amount. After the wins are awarded, any Multiplier Frame or Jackpot Frame will be removed from the grid for the next spin.

The four Jackpots are:

CLOVER CRYSTALS

The Clover Crystal symbol collects the values of all Multipliers and Jackpots that land during a spin, even if they don't form a winning combination. The collected total Multiplier and Jackpot value is multiplied by your current bet amount after all wins have been paid out. Only 1 Clover Crystal can land at a time. Clover Crystals cannot land in a Golden Frame.
