FEATURES

WILD MULTIPLIERS AND EXPANDING WILD REELS

There are four Wild Multiplier symbols that substitute for all other symbols in the paytable. When a Wild Multiplier symbol participates in a winning combination, the value of the win is multiplied by the shown value. If more than one Wild Multiplier is part of the same winning combination, their multipliers are added together before being applied to the win.

Wild Multipliers can land on reels 2 - 5 and each of these reels is connected to a specific Wild Multiplier. The Wild Multipliers are represented by the Four Horsemen, numbered 1 - 4, have their own colors, and different possible multiplier values.

1. Blue Pestilence - linked to reel 2, can have one of the following multipliers: 2x, 3x, 4x
2. Red War - linked to reel 3, can have one of the following multipliers: 5x, 6x, 7x, 8x, 9x
3. Yellow Famine - linked to reel 4, can have one of the following multipliers: 10x, 15x, 20x, 25x
4. Green Death - linked to reel 5, can have one of the following multipliers: 30x, 40x, 50x, 75x, 100x, 200x

Wild Multiplier symbols expand if the expanded Wild Reel would be part of at least one winning combination once expanded and if it lands on its connected reel. An expanded Wild Reel keeps the multiplier value from the original Wild Multiplier, covers the entire reel and substitutes for all symbols in the paytable. If more than one Wild Reel is part of the same winning combination, their multipliers are added together before being applied to the win.

Any Wild Multiplier can land on reels 2 - 5, not only their connected reels. More than one Wild Multiplier cannot land on the same reel during one spin.

2 FS symbols award 2 additional spins,
