

ABOUT THE GAME

Beyond the storm, past the veil of rain and crackling thunder, stands the Pantheon of Jupiter—a monument to power. Towering warriors stand as eternal sentinels, their gaze locked on the heavens, watching in silent defiance, waiting for the worthy to step forward—the air crackles, splitting the heavens—a challenge from the gods themselves.

Invictus is a 5-reel, 4-row game with payline wins. With a maximum win of 10 000 times your bet available in all game modes, only those who embrace the storm will stand victorious. The gods grant no mercy—only eternal glory.

FEATURES

PANTHEON MULTIPLIERS

Pantheon Multipliers are displayed on the left and right sides of the grid. When a win originating from that row occurs, the assigned Multiplier will be applied to that winning payline.

One Left Adding Multiplier is displayed on the left side of each row. Left Multipliers will change at random and display new values during each spin. When a win occurs with high-paying symbols, the assigned multiplier value will remain the same throughout the respin. Possible Left Multiplier values are: 1x, 2x, 3x, 4x, 5x, 6x, 7x, 8x, 9x, 10x, 15x, 20x, 25x, 50x, 75x, 100x.

One Right Multiplying Multiplier is hidden on the right side of each row and will be revealed when a win occurs with 5 symbols that cross the entire grid. When such a win occurs, the assigned Multipliers will remain the same throughout the respin. At the end of the spin, the assigned Left Multiplier will be multiplied by the revealed Right Multiplier on that row to form a total Multiplier. The total Multiplier is then applied to the winning payline. The Right Multiplier value will reset for each spin. Possible Right Multiplier values are: x2, x3, x4, x5, x6, x7, x8, x9, x10, x20.

OLYMPIAN RESPINS

When a win occurs with any combination of high-paying or Wild symbols, those winning high-paying and Wild symbols stick to the grid while everything else respins. This continues as long as the high-paying wins keep growing, new high-paying wins are created, or there are no more available positions. Winning combinations of low-paying symbols do not stick or trigger respins.

During Olympian Respins, all wins with low-paying symbols are awarded directly, while all wins with high-paying symbols are awarded at the end of the respin when the grid is settled. A win with 5 Wild symbols will pay out twice, once when the win lands and again after the Respin.
