FEATURES

THUNDER RESPINS

Land at least 5 Coin symbols of any kind at the same time to trigger the Thunder Respins. This Respin sequence contains only dead symbols, Coins, and Collector Chests. During Thunder Respins, all Coins and Collector Chests that land are sticky until the Respin sequence ends. Dead symbols are non-paying and have no other effect.

Continue to land Coin symbols of any kind or Collector Chests to continue the Thunder Respins. When no new Coin symbols or Collector Chests land, the Respin sequence will end. At the end of the Thunder Respins, all Coins on the grid reveal a random cash value depending on the Coin symbol. The revealed values are calculated based on your current bet.

Bronze Coins can reveal values based on the following bet multipliers: 0.5x, 1x, 2x, 3x, 4x

Silver Coins can reveal values based on the following bet multipliers: 5x, 10x, 15x, 20x

Gold Coins can reveal values based on the following bet multipliers: 25x, 50x, 75x, 100x, 250x, 500x

The Collector Chest symbols can land with or without a Multiplier value. After all Coin symbols reveal their cash values, the Collector Chest activates and collects all Coin symbols on the grid. If a Collector Chest lands with a Multiplier, it collects the Coin symbols first, then multiplies their values by its Multiplier to determine the final collected amount.

If more than 1 Collector Chest lands, each one will apply its own Multiplier to the Coin symbols it collected. Each Collector Chest collects each Coin symbol once. If Coin symbols get collected, they will retain their original values when collected by another Collector Chest. Collector Chests activate one by one, from top to bottom, left to right. The final win is the total value of all collected Coins from all Collector Chests. The possible Multiplier values are: x1, x2, x3, x4, x5, x10, x15, x20

Once the Thunder Respin sequence ends and all collections are complete, the grid resets, removing Coin symbols, Collector Chests, and dead symbols before the next spin.

BONUS CHOICE

Landing 3 or 4 FS scatter symbols at the same time in the base game brings you into the Bonus Choice menu, where you can choose between 2 bonus games depending on the number of landed FS symbols.

With 3 FS symbols, you may choose either the STORMBREAKER or the THE WILD STORM bonus games.

With 4 FS symbols, you may choose either the LEGACY OF LIGHTNING or the HAMMER OF THE HEAVENS bonus games.

BONUS GAME - STORMBREAKER

When you choose this bonus game from the Bonus Choice menu, you will get 3 free spins. In this bonus game, each free spin triggers a new Thunder Respin sequence. During Thunder Respins, a minimum of 2 Coins and 1 Collector Chest will land during each Thunder Respin sequence!

BONUS GAME - THE WILD STORM

When you choose this bonus game from the Bonus Choice menu, you will get 10 free spins. In this bonus game, all Wild symbols that land are Sticky and stay on the grid throughout the bonus. When a Wild symbol lands, it can reveal a Multiplier which multiplies the winning payline it is part of. If more than 1 Wild symbol contributes to a win, their values are added together before being applied to the total win.

If 4 Wild symbols land and cover an entire reel, they transform into a full Wild God Reel with a total Multiplier. This total Multiplier is the sum of adding all individual Wild Multiplier values and is applied to the entire Wild God Reel. If a winning combination includes more than 1 Wild God Reel, the Multiplier values will first be added from left to right and then applied to the win. Wild God Reels stick to the grid and remain throughout the bonus.
