GAME INFO - MAYAN STACKWAYS™

ABOUT THE GAME

Tread into the mysterious ruins of a long lost Mayan city, where terrors and treasures await. Mayan Stackways™ is a 5-reel, 4-row slot with ways wins, featuring the Stackways™ mechanic with a maximum of 100,000 winning ways! The max win in this game is 10,000 times your bet! The max win can be reached in the base game, Stack Spins and Mayan Gold game modes!

FEATURES

STACKWAYS™

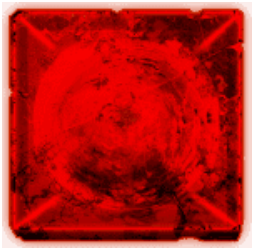
Land the Stackways™ symbol on a reel to fill that reel with a stacked amount of paying symbols equal to the number displayed. Between 2 - 10 symbols can be stacked on each reel.

The stacked symbol is chosen based on what symbol would award the largest win among the symbols present on the reels when the Stackways™ mechanic activates. The stacking only occurs when the result of the stacking would create a win.

STACK SPINS

Land 3 Skull scatter symbols at the same time in the base game to activate this bonus feature with 10 free spins.

In the Stack Spins feature you have a higher chance of landing Stackways™ symbols. Landing the Reel Activator scatter symbol activates the reel where it landed and guarantees that a Stackways™ symbol lands on that reel on each remaining free spin.



Landing 3 Skull symbols at the same time during the feature awards 4 additional free spins.

MAYAN GOLD

Land 4 Skull scatter symbols at the same time in the base game to activate this bonus feature.
In the Mayan Gold feature your goal is to collect Coins and save their values above the reel where the Coins land.
Bronze coins can have the following values: 1, 2, 3, 4, 5
Silver coins can have the following values: 10, 15, 20
Gold coins can have the following values: 25, 50, 100, 150, 200, 250, 500, 1000

Landing a Multiplier symbol will multiply the number above the reel where it lands with the value on the Multiplier.
Multipliers can have the following values: 2, 3, 4, 5

Landing a Stackways™ symbol on a reel will fill that reel with a stack of Coins where each Coin takes on the value above that reel! Once a reel is stacked with Coins that reel is locked and no longer spins.
Landing the Collect scatter symbol will collect all Coins on the currently locked reels and store the sum in the Vault below the reels. Collecting the Coins also unlocks the stacked reels!

The feature ends when all five reels are simultaneously locked by stacked Coins. When the feature ends, the values of all stacked Coins and the value stored in the Vault will be added up and multiplied with your bet to determine the awarded prize.

A Golden Opportunity

Landing 5 Skull scatter symbols at the same time in the base game will start the Mayan Gold feature with a value of 50 above all reels. This cannot occur when buying the bonus Mayan Gold through the bonus buy feature.
